

# Kiosk Viper 19"

Soluzioni TouchScreen Professionali

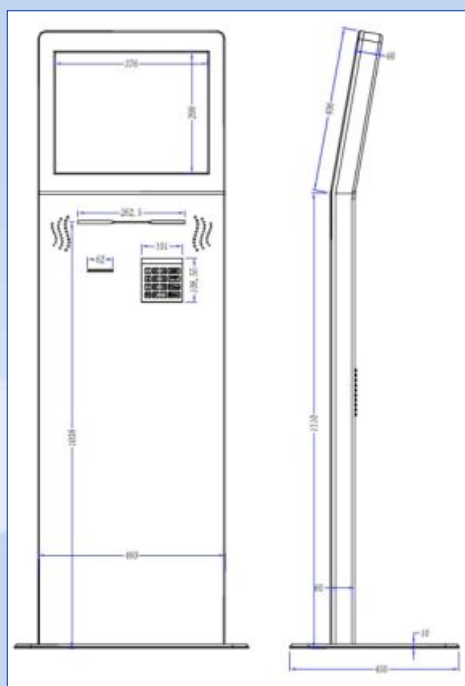

TouchScreen  
All in One

www.microdata.it

The Viper 19" Touch is the floor-mounted and super slim kiosk system that doesn't rely on a separate computer case. In this system, the computer is integrate into the ultra-slim contours of the kiosk without any unwieldy bulges or external boxes.

#### Areas of Application:

- Touch screen kiosks
- Internet terminal
- Visitor welcome system
- Commercial signage
- Office signage
- Virtual receptionist
- Employee intranet access

#### Special Equipment:

- HiFi speakers
- Thermal printer
- Wireless LAN
- Touchscreen
- Vandal-Proof
- Water-Proof
- Dust-Proof Available

#### Product Advantages:

- Inexpensive quality kiosk system
- 2-layer chassis
- High brightness 19 inch display
- All-in-One PC technologies
- 6cm super silm thickness
